IT GROWS WARMER AFTER COLD SPELL

But the Month of December Has Been an Unusually Cold One.

There was slight modification in the temperature yesterday morning and the climate bids fair again to get down to the genuine Arizona winter, about which so much is heard. According to F. H. Simmons at the date orchard, the week ending the 24th inst. was one of the coldest periods ever recorded at the orchard. In fact, the month of December has proved by all odds the coldest month ever recorded. To this date there have been only about six nights in December when the mercury did not go to 32 or lower.

His report for the week ending December 24 is as follows:

| Date | High | Low | Weather |

| 18 | 50 | 38 | Cloudy |

THE LOGICAL PLACE

ONCE TRIED ALWAYS

The unusual cold weather has had the effect of driving the sap into the roots of the trees. The trees, consequently, have suffered less than had there been a few real cold nights early in the season. The extent of the cold wave has really proved the salvation of the fruit business.

Wednesday night at Masonic hall, Oriental Lodge, No. 29, F. & A. M., installed officers for the ensuing term. The run was made by way of the Center street bridge, up Mill avenue to the public school, and east toward Mesa on Eighth street.

At the close of the installation ceremonies, the lodge presented to the retiring worshipful master, A. S. Frankenberg, a beautiful past master's jewel, handsomely chased and of pure gold. The members then all repaired to the Parlor restaurant where they enjoyed a luncheon of sandwiches, oysters, coffee, fruits and other good things to eat, winding up with a box of Perfection. A number of after dinner speeches were made and the social features were enjoyed by all.

YOU CAN'T BEAT IT.

For a short time only Hyder Bros. will sell their bodies' and children's sweaters at one-half off. What is left of their Oriental stock of goods from the Christmas trade will also be sold at a discount of 20 per cent. This firm makes a practice of carrying nothing over—hence these prices. If

A "THOROUGHbred PIMA"
A shipment by express was made from Mesa yesterday morning that stands alone in uniqueness so far as this town is concerned. J. C. Tucker brought to the Wells Fargo office what he styled a "thoroughbred Pima" colt, seven months old. He secured lumber, made a strong crate and placed the colt in it for shipment. When weighed the little pony tipped the scales at 175 pounds. It was a gentle thing, taking its confinement to a crate as a matter of course. Its color was a light brown, the hair long and woolly. The colt was consigned to G. C. Crump, Laneville, Louisiana, and it will have a long ride by rail. The animal is a present to Mr. Crump's children and will, no doubt, be one in which they will delight.

SAVED HIS WIFE'S LIFE.
"My wife would have been in her grave today," writes O. H. Brown, of Muscadine, Ala., "if it had not been for Dr. King's New Discovery. She was down in her bed, not able to get up without help. She had a severe bronchial trouble and a dreadful cough. I got her a bottle of Dr. King's New Discovery, and she soon began to mend, and was well in a short time." Infallible for Coughs and colds, its most reliable remedy on earth for desperate lung trouble, hemorrhages, la-grippe, asthma, hay fever, croup and whooping cough. 50c, \$1.00. Trial bottle free. Guaranteed by all druggists.

WHO LOST IT?
The sheriff's office reports that a suit case was taken from a couple of hoboes recently and is being held awaiting information. The suit case contains the brand of "A. Hunsaker, dry goods, Mesa, Arizona," and was, no doubt, taken from someone in the Mesa section, who had purchased it from the firm of A. Hunsaker, when that firm was doing business in Mesa. Who lost it?

ENDS WINTER'S TROUBLES.

Those knowing of parties who would be glad to have any of these articles should see the proprietors.

Lightning Kills Few

In 1906 lightning killed only 169 people in this whole country. One's chances of death by lightning are less than two in a million. The chance of death from liver, kidney or stomach trouble is vastly greater, but not if Electric Bitters be used, as Robert Madsen, of West Burlington, Ia., proved. Four doctors gave him up after eight months of suffering from violent liver trouble and yellow jaundice. He was then completely cured by Electric Bitters. They're the best stomach, liver, nerve and kidney remedy and blood purifier on earth. Only 50c at all druggists.

GLENDALE DEPARTMENT

GOVERNMENT PAVEMENT PLANT FOR GLENDALE

An Open Question Yet Whether the Rate Will Be Lower Than at Present.

GLENDALE, Dec. 28.—The government has purchased a lot from the Glendale Ice company, where it will commence the erection of a power station in the next few days. Whether or not this will mean a saving to the people of the town is not yet determined. According to the load rate of the town as it now stands, current will cost the distributing station six cents per thousand kilowatt hour. It is doubtful then at that rate if the distributing plant can sell the current at a rate less than at present.

MANY HOLIDAY PARTIES.

A party of young folks enjoyed a very delightful picnic at the Grier ranch, about five miles west of Glendale, yesterday. The number included Misses Helen Fauber, Grace Helm, Ruth Helm and Frances Grier and Messrs. Everett Burkley, Truman Helm and Baird Green.

Mrs. Merriam will entertain the Baptist Young People's Union tonight.

AN ALARM AT NIGHT

That strikes terror to the entire household is the loud, hoarse and metallic cough of croup. No mistaking it, and fortunate then the lucky parents who keep Foley's Honey and Tar Compound on hand. H. W. Casselman, Canton, N. Y., says: "It is worth its weight in gold. Our little children are troubled with croup and hoarseness, and all we give them is Foley's Honey and Tar Compound. I always have a bottle of it in the house." Elvey & Huett.

The Glendale board of trade requests its members to write to their former home papers in a manner to boost the town.

Three members of the advertising committee of the board of trade went by automobile today and erected a sign board.

Wherever there are people suffering from kidney and bladder ailments, from backache, rheumatism and urinary irregularities, Foley Kidney Pills will help them. Belvidere, Ill., E. A. Kelly, an ex-engineer, says: "Three years ago my kidneys became so bad that I was compelled to give up my engine and quit. There was a severe aching pain over the hips, followed by an inflammation of the bladder, and always a thick sediment. Foley Kidney Pills made me a sound and well man. I can not say too much in their praise." Elvey & Huett.

COLLEGE ATHLETICS ARE GIVEN ATTENTION

Representatives of Many of the Large Educational Institutions Meet in New York

[Special Correspondence]

NEW YORK, Dec. 28.—Athletic representatives of the leading educational institutions of both East and West met at the Astor this morning and convened the annual session of the National Collegiate Athletic association.

The summer baseball question as it affects the "big eight" western conference will be one of the principal subjects of discussion. Coach Stagg of the University of Chicago brought the matter to the attention of the national organization. The summer baseball question was already on the program, but the move of the westerners in introducing their own situation has created a greater interest.

Eighty colleges and universities, with a total student body of over a hundred thousand, are represented in the National Collegiate Athletic association. It is declared that educators throughout the land have reached the firm conviction that a nation-wide effort is necessary to get the best educational results from college athletics.

Speakers on the program today include Maj. Gen. Leonard Wood, chief of staff, United States army, on "The Military Value of Athletics to the Nation;" Chancellor McCormick of the University of Pittsburgh on "Collegiate Athletics From the Viewpoint of the President of a University;" and Prof. Scudder of Rutgers on "The Influence of Collegiate Athletics Upon Preparatory Schools."

The session this afternoon included reports from representatives of the various districts into which the United States has been divided, the football rules committee, the committee on amateur law and the committee on track athletics.

An experience meeting held this evening included an interchange of views on topics of immediate and general interest, such as the employment of professional coaches. In regard to the latter matter, the National Collegiate Athletic association adopted the following resolution:

"It is the sense of the National Collegiate association that coaching and training be confined to the regular members of the teaching staff employed by the governing board of the institution for the full academic year; physical education constitute a regular department, and receive the same consideration and be given equal responsibility and be held to the same accountability as any other department in a college or university."

It is not expected that all institutions of learning will be able to conform to this resolution immediately, but it expresses an ideal toward which

all college educators feel they should progress.

As college athletics are now conducted, it is alleged, only the physically fit are encouraged to take part in the various outdoor sports, while those who are most in need of the development of the physique resulting from a moderate indulgence in athletic contests are neglected.

Finances and Markets
[Associated Press Dispatch]
NEW YORK, Dec. 28.—After several days of quiet, the equality of the stock market was upset today by two occurrences which Wall street interpreted as bearish. One was the unexpectedly poor November reports of the Harriman roads, the other a statement from Washington that the bill lowering the tariff on steel is soon to be presented to the lower house of congress as the first step in the tariff legislation of the present session. The stock market was dull near the close yesterday and until the middle of the afternoon, when the above two influences brought the bear forces into action. During the remainder of the session trading was active and prices fell away. Union Pacific, with a drop of 2 1/2, was the heaviest loser among the active issues. United States Steel sold in large amounts and sank more than a point to 66 3/4. Reading, New York Central, St. Paul, Northern and Southern Pacific Baltimore & Ohio and N. Y. & N. J. Electric and Manhattan Copper lost a point or more. Pressure against the Union Pacific the last few days is said to be due to selling in anticipation of the poor November report, but the street was not prepared for a falling off of \$888,000 in gross earnings and \$1,100,000 net. Southern Pacific's shrinkage of \$15,000 in net is due largely to \$400,000 increase in expenses, the loss in gross returns having been \$241,000. These reports followed unfavorable reports submitted yesterday by the Rock Island. Weather conditions are largely responsible for the falling off in gross receipts, it is claimed. The strike of the shophmen on the Harriman lines is also said to be a prominent factor in the general results. International Mercantile Marine also was prominent today, following a gain of yesterday and adding two points more. Bonds were firm. Union Pacific convertible bonds were weak and some of the speculative issues were heavy. Total sales, par value, were \$2,521,000. United States fours, registered, fell 1-8 n call.
